Sir,

Your Account, in relation to Gold and
Silver Bullion, deposited at the Mint for coinage
from the 1. January to the 31. December 1823, has been
adjusted at the Treasury; and a balance stated to
be due from you to the United States of \$187,270.⁰⁰/₁₀₀
Which balance is to be hereafter accounted for.

Respectfully,
J. A. Aaron
Comptroller.

James Rush, Esq.
Treasurer of the Mint,
Philadelphia.

Treasury Department,
Comptroller's Office,
29. April 1824.

Sir,
Your account of Ordinary Receipts and Expenditures at the Mint, from the 1. January to the 31. of December 1823, has been audited at the Treasury; and a balance stated to be due from you to the United States of Dollars 2,756.¹¹/₁₀₀ - Which balance accords with the one stated in your accounts rendered; and is to be accounted for on a future Settlement.

Respectfully
Jas. Ancker
Comptroller

James Rush, Esq.
Treasurer of the Mint,
Philadelphia.

TREASURY OF THE UNITED STATES,

Washington, *April 15th 1824.*

With due consideration, I am,

Sir, your obedient servant,

W. T. Lusk
Treasurer of the United States.

J. A. Rush Esq.

Russellville Ky.

Feb. 28th 1824

Dr. Sir,

Enclosed is a small specimen of a metal extracted from an ore in this country, which I beg leave to request that you will test and inform me the result, If it be a compound what is the predominant metal? I have ^{been} paying it a little myself, but all tests that I can procure are so imperfect, & even adulterated, that I can come to no satisfactory conclusion. To you and in your situation, there can be no difficulty and it will require but a moments time. It is information in which I am deeply interested. It is from considerations like these that induces me to trouble you upon the subject. A speedy reply to this would be very acceptable to

Yrs. Obedt. & humble Servt.

P.S. This specimen was run from the ore in its present state. Any information you may think proper to give as to its value H. H. will be thankfully received.

B.

Phila

Sir

Birmingham Jan 5 1824

We have at length met with an opportunity to send the shells
ordered for the Mint without any danger, as we hope, of confis-
cation at Liverpool - They are enclosed in two casks to our
friends Messrs. Craigie & Huston & Co, and we trust they will in
all respects be found to merit your approbation.

Copper continues low and we hope you will soon
favor us with an order for planchets, allowing us time to
buy as well best serve your interest.

I beg leave to inform you that I have taken my son
Alfred Harrod into partnership and that in future he
will be Wm Harrod & Son.

I remain Respectfully Sir, your

Yours obedient Servant

W Harrod

I sent a day or two ago 2
small Bundles by Express, value about
\$900 to the Mint, with a request
to hold the Certificate, subject to my
order - They will please to call for
it, & send me a Check for the
value thereof - They better I presume
will be a sufficient order for it -

I am with respects
Sincerely,
Thomas T. Smith
the premium allowed
by the - S. T.

Received the Certificate above mentioned
John Jaynes

Philad^a

City of New York, the 2^d June 1825

Sir

Having about 40 thick large Copper plates, ^{or 300 lbs} that
have been used for Engravings, to dispose of (weighing about 200 lbs)
I request to know how much the U. S. Mint will purchase the
same at? the plates are nearly the thickness of a cent, & are
polished, ^{with engravings on them}; & cost me 4 Cents the square ^{sheet} in Philadelphia some
years ago. As they are of pure copper, without oxidation or
corrosion, & just fit for the use of the Mint, I presume you
can afford to pay more for them than the copper smiths offer,
who are paying 25 a 27 Cents for old copper.

I request the favour of you to inform me ^{by return of Post} the highest price
that you will pay for the same (Cash) deliverable in Philadelphia;
and also, by what channel I may send them to you, in case
your offer is such as I can accept.

Praying you to excuse the trouble that I may put you
to, I have the honor to salute you very respectfully

to the Director of the Mint J. M. O'Connor
Philadelphia

Wm. of the U.S. State

Philad^a June 4, 1865

Sir

Your of the 2^d relative to coffee
for the use of the U.S. State came to hand too late
to admit of a reply by mail of yesterday.

The supply of coffee now on hand being
sufficient for some months & the price being more likely
to decline than advance, it is not ^{considered} ~~convenient~~
^{expedient} to purchase any more of that article at
present. For your information I remark that the
price you mention, 25 to 27 cents, is rather higher
than the cost of our last purchases. If an addition
to our stock were necessary it could be obtained
of good quality at 25 cents.

Yours respectfully

J. M. Moore

Mr. J. M. O'Connor

Sir,

Newport 3rd August 1825

In answer to your favour of 5th April I beg to inform you,
that I drew today upon you at sight for

\$71.50 in favour of the Bank of Newport, recommending
the same to your protection.

I was sorry to hear, that you found that one bundle of
Steel, unsuitable for dies. -- I receive regular supplies
of German steel of superior and warranted quality and should
be happy to furnish you with whatever you may want of this
article. Best quality I quote as follows \$12. --

I remain with respect,

Sir,

Yours^{tr} J.
Friedrich

Sam. Moore Esq.
Superintendent of the W. S. Mine
Philadelphia

Portland, State of Maine, Aug 29. 1825

The Director of the
United States Mint Sir, I enclose a draft of the
Cashier of the office of Dir. & De^t Bank of the U. S.
Lexington on the Cashier of the Bank of the U. S.
Philadelphia No 580 for three hundred sixteen
dollars 25/100 the amount of which you will
please send me in Cents by the first vessel
which may sail from your port for
Portland - If there is no vessel in your port
now up for this place - you will probably
in the course of 10 or 12 days from this find
the schooner Enigrant, Prince, Master, in
your place bound to Portland. Send by
her - Not knowing the name of the gentle
man who presides over the Mint must
be my apology for using the address I do
Be so good as to acknowledge
the receipt of the draft & respecting the
shipment of the Cents

Very respectfully yours
Humble servant
Isaac Adams

SHIPPED in good order and well conditioned, by the Agent of the Treasurer of the United States, in and upon the good Schooner *James Burdell* whereof is Master for this present voyage, *Henry Hall* and now in the river Delaware, and bound for *Providence Rhode Island*

Five baskets containing Eight Hundred Dollars in Copper coins

Being marked and numbered as in the Margin, and to be delivered in the like good order, and well conditioned, at the aforesaid Port of *Providence* (the danger of the Seas only excepted,) unto *the Cashier of Branch Bank* or to his Assigns: he or they paying Freight for the said Goods, *Five Dollars*

Nothing the Freight having been received in Philad.

IN WITNESS WHEREOF, the Master or Purser of said Schooner hath affirmed to *two* Bills of Lading, all of this Tenour and Date: one of which being accomplished, the others to stand void.

Henry Hall

Philadelphia, *22^d August 1830*

Washington 16th of Decr 1825

Dear Sir,

Your communication to the Secy of the Navy, to which was annexed a copy of your letter to the Secy of the Treasury touching some specimens of Copper Ore forwarded to you for the purpose of causing them to be assayed, has, by him, been handed to me, with a request that I should address an answer to you on that subject.

The two specimens contained in the box were taken, without selection, from the native bed. But as it was, in the course of examination, found that a variety existed in the veins, or strata, it was deemed best to ascertain the differences, if any, in the quality & quantity of the metallic component. To that end a sample of each was taken, as I have said, in the native form, & sent to have the desired ascertainment made. I am very thankful for the information which you have been so obliging to give as to the charac-

ter of the small specimen and I must avail myself
of your kind offer to have the larger specimen tested.
When that shall be done, I will thank you to add
to the result, your opinion as to the quality of the
metal which may be found, and as to the proba-
ble advantage with which such ore, if found in
abundance, & favorably situated, may be converted
into metal. Your answer will be given thro' the
same channel as the former. I have the honor to
be with very great respect

Your most obt^d & obliged Se

John Taliaferro

Minut of the U. States

Philad^a Dec^r 21. 1825

Dear Sir.

Yours of the 16th. was duly rec^d. The
larger parcel of the one ~~of~~ ^{alluded to} has been care-
fully viewed and an examination of it
by Mr. Bland according to your request.
It will be made, as soon as it can ^{conveniently} ~~be~~ ^{be} ~~made~~
only ~~the~~ ^{the} ordinary ~~business~~ ^{business} of
Lawson,

the Muns, as ~~present~~ added to the preparation
for closing ~~for closing~~ the ~~business~~ business of the
year in its several departments, render it
convenient to postpone this examination ~~of~~
~~the business~~ ~~after the first of January~~
~~for the present~~ ~~Barly in January~~ ~~it will be~~
attended to, ~~by suggestions~~ & the result communi-
cated with ~~my~~ ~~suggestions~~ suggestions as may seem
to have any value. —

Hon^{ble} Mr. Palfreys.

Sir,

Assured I have the pleasure
to ^{be} your satisfaction
of communicating to much of the copy of ^{letter}
~~letter~~ of this date to the Secretary of the Treasury
as relates to ^{an} the analysis of the ~~of~~ coffee
see referred to in your favor of the 26th.

to be two specimens, the smaller appearing
to be a selection of the portions most abounding
in Metal. This only has been analyzed. The cor-
responding results of two trials give five parts
of Copper in thirty of the ore. If the larger spe-
cimen be a sample of the ore as found in
the Mine its analysis would be instructive
and will be made if requested - ~~But~~ but
if it be the residue of a partial sample after
the selection of the small parcel from it no

that of any ^{any} former ^{former} equal ^{equal} period. Of the im-
pity of further should be continued I flatter myself
the next annual report of the operations of the
Mint will exhibit an amount of ^{greater} coinage
than has been executed in any former year since
the establishment.

I am with great respects

Philad Dec 10 1825

The copper ore sent here on the
24th. ult. accompanied by your report, to
have it analyzed has been carefully examined
by Mr. Clark. There were found to be two
specimens ~~the smaller~~ ^{portions} appearing to be a
selection of the ~~fine~~ ^{most abundant} in metal.
~~and the larger~~ ^{corresponding} analyzed. The results
of two trials give five parts of copper to
thirty of the ore. If the ~~smaller~~ ^{copper} specimen be
a sample of the ore as found in the mine
~~the larger~~ ^{the residue after the}
~~smaller~~ ^{smaller} its analysis would ~~not~~ be in-
finitesimal and will be made if ~~possible~~ ^{possible},
but if it be the residue of a general sample
after the ~~selection of the~~ ^{selection of the} ~~smaller~~ ^{smaller} ~~specimen~~ ^{specimen} ~~it~~ ^{it} no
valuable information would result from ~~its~~ ^{its} ~~analysis~~ ^{analysis}.
It was ~~not~~ ^{not} ~~found~~ ^{found} ~~to be~~ ^{to be} ~~valuable~~ ^{valuable} ~~information~~ ^{information} ~~to be~~ ^{to be} ~~obtained~~ ^{obtained} ~~from~~ ^{from} ~~its~~ ^{its} ~~analysis~~ ^{analysis}.
Henceforth ~~the~~ ^{the} ~~smaller~~ ^{smaller} ~~specimen~~ ^{specimen} ~~will~~ ^{will} ~~be~~ ^{be} ~~forwarded~~ ^{forwarded} ~~as~~ ^{as} ~~requested~~ ^{requested}
the metal obtained by the ~~selection of the~~ ^{selection of the} ~~smaller~~ ^{smaller} ~~specimen~~ ^{specimen}

Our specimen is in the form in which
it came from the mine. The other has
been rolled to ascertain its malleability - the
~~quality of the copper is not~~ is of good qua-
lity.

The small specimen ^{considered to be} ~~plaster of Paris~~
^{also} has been examined ~~by Mr. Blaud~~ ^{by Mr. Blaud}
from its external ~~appearance~~ ^{appearance} alone immediately and
correctly decided it ~~is not~~ ^{is} to be that
~~of the so-called Antimony Sulphide~~ ^{This is}
not usually found in abundant quantities. If
a large specimen could be procured it would
be ~~possible~~ ^{possible} to multiply its
distinguishing peculiarities further.

With great respect

Yours ob^l Serv^t

Thos. Richard Park

Mineral of the U. States
Philad. Nov. 30. 1825

Your letter of the 31st ult. reached me
by a private hand last yesterday, with the mineral spec-
imens therein referred to, & an examination of them will
be made by Mr. C. and the Mother & Father of the Mineral
soon accordingly. ~~Should it be~~ will have nothing
doubtful relation to them, & that it can be easily to be seen.
The Mineral ~~is~~ furnished as Copper ore is certainly an
one of that metal. - Its internal character indicates it
to be that carbonate of copper called Malachite. The
result of an analysis I shall have the satisfaction to
communicate in a few days.

The specimens considered to be *Cyprus*
is doubtless that ~~substance~~ under one of its
most beautiful forms. ~~It is~~ ^{from a highly malachite} *Cyprus* ~~is~~
it ~~is~~ ^{from a highly malachite} *Cyprus* ~~is~~
admits no question of its nature, it also, for
your own perfect satisfaction, will be ~~tested~~
the result communicated.

Wm. R. Smith

Sir

Trust of the U. States
Philad. Jan. 1. 1825

Your favour of the 27th ult. & referred to my
p. 10. upon ~~can~~ ^{can} ~~re~~ ^{re} ~~be~~ ^{be} ~~ing~~ ^{ing}

The Silver Bullion you mentioned in I pre-
sume of the character called an aluminated silver, but as we
generally receive from ~~the~~ ^{the} ~~United~~ ^{United} ~~States~~ ^{States} & South America.
It will be used in deposits for coinage & will give ~~you~~ ^{our}
dollar for the number of grains of pure silver in a dollar but it
is not the practice to buy ~~silver~~ ^{over} ~~at~~ ^{out} ~~the~~ ^{at} ~~mint~~ ^{mint}. If your
deposits ^{on an average of the} ~~prove~~ ^{to be} of the standard of the U. States you will
receive its full weight in silver coins without ~~charge~~ ^{charge}.
If below standard there would be a charge for refining
varying from 1/2 to 1/4 the per cent. If above standard
or an aluminated silver ~~it~~ ^{is} then will be a ~~charge~~ ^{charge}
~~of~~ ^{for} the loss of the copper used for alloy, which may
vary from one fourth to ~~one~~ ^{one} ~~cent~~ ^{cent} of one per cent on
the value of the deposit.

^{of such a quantity as you mention}
The Melting & Assaying ^{has} ~~are~~ ^{generally} ~~complete~~ ^{complete},
in a ^{few} ~~few~~ ^{hours} ~~hours~~ ^{the} ~~day~~ ^{day} after receiving
the rough deposit - if it ^{was} ~~was~~ ^{large} ~~large~~ ^{two} ~~days~~ ^{days} ~~would~~ ^{would} ~~be~~ ^{be} ~~required~~ ^{required}.
The delay of coinage depends on the amount of puritan deposits
which being ^{great} ~~great~~ ^{of present} ~~of present you would be postponed about three
months. Most depositions usually avail themselves of the~~

furniture offered by the Board of this City, which
pay back for interest on the amount of a discount of
one half per cent on their amount.

I think it proper to apprise you that
of Amalgamated Silver
as brought to the market
that the Amalgamated Silver contains a small portion
of Lead & sometimes contains in its pores, which are
of course disfigured by the melting - the loss in weight
on the rough deposit varies, generally between
One & four per cent.

Nothing farther seen - he was an empty
^{information} ~~for your information~~ - he pursued his appointment -
 the affairs in matter, but are well be done.

Th. T. Tucker
Treasurer of the United States.

James Cuthbert Esq.
Treasurer Mint

New York 16th February 1825.

To
the Honorable
Wm L. Crawford
Secretary of the Treasury
Washington

Sir,

I take the liberty to inform you, that
I have imported from Germany a new kind of
Steel, exclusively invented and adapted for the
dies used in coinage. This Steel has in the
minds on the Continent of Europe been so much
approved of, that it has supplanted almost
entirely the British cast Steel used in them
heretofore. Consequently I beg that it may
please you to direct my sending on to the U. S.
mint at Philad. a specimen of said Steel,

Yrs.

1. pag 1 Bar: / which need not to be paid for,
in case it is not found to answer the
purpose in question? which however
I flatter myself it will do so fully, as to
induce the above establishments, to
prefer it to the old material.

I hope to be favored with an
early answer, I have the honor to be, Sir,
with great respects,

Yours &c
Friedrich
W. G. Consul for the Russian
Empire at the Rhine

New York 5th March 1856.

Sir,

In conformity with your request of 2nd ult. I have
the honor to transmit you herewith Bill of Lading
of two Bundles Steel, shipped to your address on
board the Schooner "D. N. K. B. S. S. S."

These two Bundles I imported as samples &
if you approve of them, any quantity may be
ordered. The price is \$25.00 per 100 lbs.

Please observe that according to my best
recollection, the steel ought not to be cut the
length of the piece but across it.

I shall be happy to be informed of your
opinion on the subject, remaining very respectfully,

Yours obedt. Servant,
Wm. S. Bondal for the Provisional
Director of the N. S. Mine.

Saml. Moore Esq.

Director of the N. S. Mine,

Philadelphia.

T. O.

J. S.

I just now observe that a mistake had been
committed in sending you two Bundles, the 1st
being no other than a set of the common German notes
of very good quality. I shall beg leave to dispose
of the same, in case you can not make use of
it. The price is \$75. p. 100.

James M. Smith
Esq.

Bullard / Dec 12. 1825

Mr

Receiving by your last annual re-
-port of the operations of the Mint, that you
transport at the expense of the Government, copper
coins, to all parts of the U. S., I have to request
in behalf of the Bank of Bullard & Co. to
~~be~~ ^{be} ~~at this place~~ ^{at this place} that you will be pleased
to send us a cask of cents - and we should be
glad if you will do us the favor to put in a
small amt. of five cent pieces. I think the best
way to send them is through the Northern Canal
to Whitehall, N. Y. to the care of Ezra Smith Jr.
Merchant which is but 24 miles distance from
this. The amt we will deposit in the Bank

Sent Moore by
Philadelphia

Mint of the United States

Philad^a April 18 1823

Sir

Your favor of the 12th inst. regarding
a supply of cents is at hand.

The casks of cents now in our vaults
contain in value within 160,000 or 200 dollars.
A single cask requiring the same formation and
attention as a larger quantity we would prefer
sending at least two if satisfactory to you. If not
your wish as to ^{the} amount shall be complied with.
Please however to make your order such as may cor-
respond with the actual contents of our present packages.

The instructions from the Treasury dep^t
relative to the transmission of cents require that a
deposit to the credit of the Treasury of the United States
equal to the amount ordered shall be previously
made in ^{one of the} Banks designated to receive deposits.

of public money, and ~~sent to~~ the Cashier
certificates of such deposits forwarded to the Treasurer
of the Mint. This procedure is familiar to the
Bank of Burlington from which orders for copper
coins have ^{occasionally} been received. A deposit in that
Bank will be satisfactory.

When ~~the order~~ your order and the
Cashier certificate of the requisite deposits shall
have been received, the quantity ordered will be
promptly forwarded through the Agents of the
Mint at New York and delivered at Baltimore
at the expense and risk of the United States.

No silver coins of a denomination
less than half dollar have been recently struck and
it is therefore not in our power to comply with
your request relative to the five cent pieces.

Very respectfully,

Yours O^b Serv^t

Wm. Wood, Director

Treasury Department,
Comptroller's office,
5th May 1825.

Sir,

The acting Secretary of the Treasury
having referred to me your letters of the
3rd and 18th March last, I have to state
in reply, that, as the 7th section of the
act of 2^d April 1792, establishing the
Mint, requires the accounts to be rendered
quarter yearly, it is not competent for
this Department to authorise a departure
from that course.

With great respect

J. A. Anderson

Comptroller.

Samuel Moore, Esq.
Director of the Mint }
Philad^a.

Attorney of the U. States

Philadelphia May 10-1865

Sir

Your favour of the 5th. inst. comm-
municating the decision of the Dept. as to the propriety
of sanctioning the substitution of Annual in place
of Quarterly returns, ^{which has for some years preceded here} came to hand yesterday.

~~I am~~ ~~not~~ ~~at all~~ ~~perfectly~~ ~~satisfied~~
with the ^{above} opinion ~~on the subject~~, as anticipating the
result had a result limited the quarterly returns
for the quarter ending March 31 to be made
up and forwarded, which was accordingly done
before the end of the ~~last~~ month of April, &
this case will hereafter be added to.

With great respect

Wm. Anderson Esq.
Comptroller of the Treasury

 Officer of the Affairs

T. L. M. Henry
 Esq.
 Jan 26 1825
 1085
 Sandmoose

To
Doct. Samuel Moore,
Director of the Mint,
Philadelphia.

Department of War
Office Indian Affairs
Decr 1st. 1825.

Sir,

I have before me your very obliging
letter of the 28th ultimo.

The Secretary of War is gratified at the
prompt movements which you have reported, in regard
to executing the preliminaries for striking the Medals,
and with the spirit, in which this work has been
undertaken. It is hoped, you will be in time for
the occasion for which these Medals are wanted,
and that the few additional days asked for their
completion, will not, ~~as is feared~~, interfere with the
object in view, which is a presentation of part of them
to the Chiefs now here. -

I have the honor, to be,
very Respectfully,
Your Obedt. Serv^t

Thos. McKenney

To Doct
Samuel Moore.
Director of the Mint.
Philadelphia.

Department of War.
Office Indian Affairs
Nov^r 25th 1825.

Sir,
It is very desirable to have Twenty
Medals, at least, of the largest size, and half that
number of the other two sizes, next week, if possible.
A Delegation from the Creek Nation, is now here,
to whom it is desirable to present them.

I am,

Very Respectfully,
Yr Obedt^t S^t

Thos. McKenney

To Col^l
Samuel Moore,
Quartermaster of the Mint,
Philadelphia.

Department of War
Office Indian Affairs
Novr 23rd 1825.

Sir,

I have the honor to enclose
herewith a copy of a letter to Mr. Furst, and to
solicit the favor of you upon the receipt of the
Order, to cause, say, twenty, of each, or more, if
convenient, to be struck and forwarded to the
Secretary of War, as soon as possible.

As it is desirable to have but one
account for this transaction, you are authorized
to settle with Mr. Furst, and draw upon the
Secretary of War, for the amount due him, for
engraving, to include a reasonable sum to defray
the expense of his visit to Washington, as in
the case of his former visit, to engrave Mr.
Monroe's likeness, and which will be for the
same sum, now, that was paid him then.

The former settlement was made through
Mr. Paughn, and upon the following basis:

1st For dies, engraving and striking &c. &c. 1973: 67
(In this item Mr. Furst's charge was included,
adding so much to it as was paid him for the
cost of his visit here to take the likenesses.)

2^d for the Silver for the three hundred Medals. 1325: 00

Total — 3298: 67

From which was deducted 500¢ for the
saving of cost of engraving by the existence of the
reverses of the former dies - leaving a balance of Total
cost for the three hundred Medals, of \$2698: 00 -

The largest Medal will be constituted of 5 4^{ths}
value of Silver, the next size of 4 5^{ths} - the next of
2 2⁵/₈ - the Silver to be of the quality of an American Dollar.

I have not at hand Mr. Furst's account as
rendered by Mr. Vaughn, and it would take some time
to get at it, as it has gone into the Treasury, with all
the accounts relating to my then Superintendency -
I presume you will find it on the records of the Mint.
Mr. Furst's agreement with me was to execute his
part of the Adams Medal, for the same price
paid him for the Monroe Medal; the cost, also
of the Silver and other expenses, it is expected will
be the same which will be paid, as you may
see

require it. -

Very Respectfully
Your Obedt. Servt.

Thos. Luke Kenney

P. S. Since writing the above
your letter of the 21st inst. has
just arrived. - MLK

Mint of the United States
Philad^a Nov^r 21. 1825

Sir

Mr. Hunt has this day upland
in the hands of Mr. Bechtold, Chief Coiner of
the Mint, the largest and master die of
the Medal of the President. The impressions
from them in their present state, I learn from
him, have been forwarded to you. Be pleased
to inform me whether it is your wish that
the die be now hardened.

Very respectfully

Your obt^d Serv^t.

L. M. Mendenhall

Wm L. Mendenhall Esq^r
Office of Indian Affairs
War Department

Copy.

To

Mr. Moritz Faust,
Artist,

New York.

Department of War.

Office Indian Affairs

November 22nd 1825.

Sir,

Your amendment of the largest and smallest
dis. for medals, of the President of the United States, it is concluded
to accept, in preference to the first attempt. You will prepare the
office of the Mint, Doct. Saml. Moore, of these two, and of the
2nd size of the first attempt, as soon as possible, as it is desirable
to have some of them struck immediately. —

Respectfully

Yr Obedt Servt.

Thos. L. McKenney.

Mr. Saml. Moore Esqr

Department of War
Off. Ind. Affairs
Oct. 13. 1828

Sir

I have received your letter of the 11th inst.
Mr. Tunst was fully & freely communicated with on what I
esteemed to be his imperfect likeness of President Adams on
the largest & smallest Dies. I considered that as an artist
Mr. Tunst would take pleasure in receiving such intimations; &
such suggestions for an alteration, if practicable, as would make
the dies conform in their likeness to the 2^d size which we all
esteem very good. But his letters indicate some restlessness; &
also a total misconception of the alterations proposed by me. I
wish only that the smallest & largest dies be made to conform,
exactly, if possible, to the 2^d size. As they are, I have complained
to Mr. Tunst, that the nose projects too far, and is too pointed; &
that the root of the upper lip goes out with it too far. But not
one word of this does he appear from his letters to understand.
I have not for this reason replied to his last letter, tho' it has
been written for sometime.

You can send the dies by a safe conveyance as
you propose, and I will thank you to accompany them, with
a letter to Mr. Tunst, stating, that no alteration is wished, ^{except}

except such as shall make them resemble more exactly the outlines
on the 2^d sized die, which is esteemed a very good likeness,
does him credit.

I am certainly anxious that these Medals should
be as perfect in their resemblance of the original as the artist
can make them. They are intended, not for the Indians, only,
but for posterity. And surely the artist is deeply concerned
in making them perfect. No more is asked of Mr. Tunst, than
to do the best he can do; he has demonstrated his skill in
the Monroe Medal, which does him great credit; and in the
second size of the Adams Medal. You can say these things
to him in such way as you may think proper, as from me.

I am very Respectfully

Yours O^b Serv^t

N. P. Please put your letters
under cover to the Sec^y of War.

Wm. L. McKim

Minister of the United States

Philadelphia Dec. 21. 1825

Sir

I recd yesterday from Mr. Hunt
a letter of advice
under date of the 8th inst. the following -
"in a copy" In consequence of having to make a
little alteration on the largest and smallest
size dies I beg you to cause one to give you
the trouble of forwarding to me the two dies
before mentioned as soon as possible." On another
occasion that of his desiring ~~that~~ the dies
might be returned to him for polishing when
hardened. I informed him that this office
could not incur any responsibility for the safety
of the dies in their transit between this and
New York, to which he replied that he did not
consider such responsibility as resting on him
and it will be noticed that ~~in the present request~~
he ^{now} ~~is silent on~~ ^{that topic} ~~the question~~. The present request

of his contract with the Department for-
laps gives some additional importance to this matter.
As however I am sure there is no disposition on the
part of the ~~Government~~ to smother the difficulties
I shall consider it proper to send the dies if the
occasion offers of doing so under the care of some
trusty person going to New York. If from such
persons I shall ^{delay} ~~not~~ forward them ~~by the~~ ^{not further delayed}
to do it by the ordinary ~~public~~ ~~transportation~~ ^{mail} ~~conveyance~~ of the ~~Steam~~ ~~Boat~~ ^{mail} I
trust without your permission to do so. Be
pleased to write me by return of mail.

I presume from the terms of Mr. Hunt's
request that you acquiesce in his purpose
of attempting the desired solution of the
dilemma of the President by further work on
the present dies.

Very respectfully,

Yours &
W. D. MOORE

W. L. McHenry Esq
Officer of Indian Affairs
Washington

To
Samuel Moore, Esq;
Minist. of the U. States,
Philadelphia.

Department of War
Off. Ind. Affair
Sept. 17. 1825.

Sir,

I am favored with your letter of the 15th instant, inclosing a copy of your receipt to, and correspondence with, Mr. Furst. It is all correct. I presume, Mr. Furst would prefer the trouble of engraving two new dies to its being said (and we all think alike, I mean the Secretary of War, and others in the Department to whom I have shown the specimen) that two of them are, however well executed as dies, any thing but correct likenesses of the President - I mean the large and small ones - The 2nd size is esteemed to be excellent, and does Mr. Furst great credit. But, should he not incline to make this sacrifice of time to his reputation ^{as an artist,} rather than have the medals struck upon the present models, except the second, (as I deem it important for many reasons, for the likeness to be perfect) some additional allowance will be made.

mk

which, however, will form the subject, as to its
amount, of further consideration.

Very Respectfully,
Apr Oct. 25

Mr. L. McHenry

Mint certificate of small account, which
 is a natural accommodation, ~~as it generally happens, that~~
~~present instance, that the~~ ~~order of deposits~~ which

To Mr. 20
 R. Ellwell
 Boston
 Oct. 4. 1820

10242

Miner of the United States
Phila. - Sept. 15. 1825

Dear Sir

Your favour of the 12th coming one of
the 10th to Mr Hunt was rec^d this morning from which I
have received from him the impressions taken from the sur-
vot dies. Your remarks on the comparative correctness of
the lithography in the different dies are no doubt accurate.
Mr Hunt will inform you whether he can do any thing to
remedy the defects you notice. I apprehend the reduction of
a feature made too prominent is not now practicable. No
measures will be taken until farther ^{advised} relation to
hardening the dies.

On the 5th, I forwarded to Mr Hunt
at his request a formal rec^d from Mr Colapert for the
dies. In the present state of the transaction I think it pro-
per to send you a copy of this receipt and of my letter
accompanying it. The last paragraph of which I think
you may safely have of from Mr Hunt. I have
been requested to give my opinion of the dies. I have ex-
pressed myself as favorable of the style of the engraving, the
likeliness out of the question disclaiming however all authority
to decide on the merits.

If the dies can not be amended as I
think they can not in the points you mention I presume
it is very desirable that the authorities of them should be ready to do. I think
that the Philadelphia National Monument
new dies will be ordered, and I think can
generally consider a near approximation to the point

in view as an agent of the contract of W. Hunt will
think it best to report his labors without additional
compensation. I should ~~think~~ ^{any difficulty, since} ~~the fact~~ ^{can} ~~be~~
liberty of suggesting that W. Hunt be engaged on
one of the dies to be removed and that I may be per-
mitted to consult an artist here as to the terms on
which he will execute the other. I should take
pleasure in having one of the dies for a model of
the President executed under my immediate in-
spection - protracted delay would be avoided by this
means, and I hope the measures could be adopted
without injury to the fame or feelings of W. Hunt.
Before any ~~an~~ arrangement is made for the removal
of both the dies complained of, allow me to sug-
gest a thought that has occurred to me, before
any ~~definite~~ arrangement is made for the removal
of both ~~the~~ the dies complained of, in the
in the ~~adjournment~~ of this ~~the~~ ^{your} meeting par-
ticularly with you please ^{to} communicate freely with me
on the subject ~~something~~ ^{Respectfully} may be suggested by
which this difficulty will be ~~dispensed~~ ^{dispensed}.

Yours very respectfully
J. M. Moore

Copy.

Department of War
Off. Indian Affairs
Sept. 10th 1825.

Sir, I have received your letter of the 5th inst., with the three impressions of President Adams' likeness. The second size is esteemed a good likeness, but the largest and the smallest are not so. There is too much projection in the point of the nose; the head and shoulders are too big, and look to belong to a very fat man. Cannot the nose and the root of the upper lip which goes out with it too far, be altered, if the shoulders &c cannot? I hope so, for indeed the impression, I fear, will not do you credit. Take the second size for your model, and all will be well.

Respectfully,

Yr obt. S^t

Thos. L. McKenney.

To

Mr. Moritz Furst
New York. -

To
Samuel Moore, Esq.

Department of War.
Off. Indian Affairs
12th Sept. 1825.

Sir,
I am favored with your letter of the 9th, and
inclose herewith a copy of one addressed to Mr. Furst.
We may wish to make some alterations in the die.
The second size is the best, and is a very good likeness.
This was taken from life; the other two are copies
from it, and vary very much, as you may see.
Until Mr. Furst is heard from, you had better
suspend further operations.

I am, very Respectfully
Yr Obedt Servt

Philadelphia

Department of War
Office Indian Affairs
Decr. 16. 1825.

Sir,

I duly received yours of the 10th inst. and have received Twenty one Medals of the largest size. When ten of each of the others, or thumbnails, are received, Mr. Elkfeldt may rest. I am much obliged by your very prompt measures in the preparation of these medals; and thank you for the extract from Mr. Vaughan's letter.

I have seen Mr. Faust. He is about to prefer his claim to Congress, under the pledge of Mr. Appleton. So far he has not requested payment. It was tendered to him.

I am,

Very Respectfully
Yrs. W. L.

Thos. L. Lawrence

Sir.

Minist of the United States
Philad. Dec. 17. 1825

A Paper addressed as before to the
Secretary of War containing twelve of the Medals
of the 3^d series ^{is forwarded by the present mail} ~~the whole of the number for the~~

You will please state ^{as the} ~~to~~
^{will be convenient for} ~~information~~ of Mr. Cutler to be early ^{in hope from of} ~~forwarded~~
have many more medals of early date ~~with probably~~
~~handmade~~ are to be executed, and at what
periods it ^{will} ~~is~~ be desirable to have
them. If the proportion of the ^{just} ~~to~~ ^{five thousand}
be small it would ^{be a favorable circumstance} ~~be~~ an ~~advantage~~ ~~for~~
the execution of them by some that injurious ~~from~~ ~~the~~
~~of the execution~~ ~~is~~ ~~not~~ ~~that~~ ~~of~~ ~~danger~~
the relief of that Medal ^{is} ~~being~~ unusually
~~too~~ high; but the proportion required will
nevertheless be ^{complied with} ~~no more~~ ~~of~~ ~~within~~
days will be immediately necessary but Mr. Cutler
desires me to say that he will as soon as practi-
cable resume the execution of them.

Yours very respectfully
J. M. Moore

to Secy of War
R 10/27

By the same Mail with this will
be forwarded a Box containing eleven of the
Indian Medals of the 2^d size. They could not be
finished in time for the Mail of this Morning which
now departs at 7 ^{o'clock}. Ten of the 3^d size are
in immediate progress, but though every hour which
could consistently with indispensable duties has been
bestowed by Mr. Eckfeldt he will only be able
to finish them in all Saturday so as to be placed
in the post office that evening for the Mail of
the following day. The box is addressed to the
Secretary of War as before

Very respectfully

Thos. L. M. Kemmy Esq.
Office of Indian Affairs
War Department

Yours &c

Wm. Wood

of this institution.

There is however another consideration which enhances the necessity for such an adjustment now - The series of our dies has been imperfect for many years. No die of the Eagle, the Dollar or the Half Dime, has been in our mint the year 1858. Little if any practical inconvenience I believe results from this omission, but the law of April 2, 1792, establishing the Mint, appears to me, though it was certainly not so understood by my excellent predecessor, to impose an official obligation to keep the series entire, & to execute from time to time coins of every denomination ordained by Law - The renovation of our obsolete dies will perhaps afford a favorable moment for considering whole series, with such modifications as good taste & the improved state of the arts at this day may suggest within the existing legal provisions.

I avail myself of the occasion to mention, that I hope to be able in a short time to submit to your consideration some medallions & drawings of a new road of ~~unity~~ ^{unity} with a view to the adoption of one of them on our coins if approved - This subject has engaged much of my attention.

The individual whom it would be my first wish to introduce on this occasion into the Mint engraving, is Mr. Eckhardt, a native American artist of much merit residing in this city. He has

was made of his talent for the execution of dies, by Mr. Patterson, on the occasion of the death of Mr. Sully in 1823, and before the appointment of Mr. Kears the present Engraver, and his work was very highly approved. We resort to him now for the better stamps of the various coins, his specimens of which are well preserved by any master at the Mint. Some of the medals imposed in modelling the Medallions before alluded to, some of which have been ~~privately~~ ^{privately} used by Mr. Riddle, Mr. Lyneal, Mr. Sully & Professor Patterson, and the style of their execution highly commended by those gentlemen. Mr. private character personal ~~business~~ Mr. Roberts as well as ~~personal~~ ^{private} work and his views would be considered in many respects a valuable acquisition.

Should I be favored with your approbation of the Museum I shall propose to ~~Mr. Roberts~~ ^{Mr. Roberts} to think his contribution to the portion of his time to be devoted to the publication of the duties to be performed, shall be carefully defined.

From the satisfaction he states that, ~~and the~~ present reputation of the Mint, aided by a recent most improvement in our machinery introduced by Mr. Eastgate the chief Engraver, I feel a confident hope that the operations of the establishment can be maintained in undiminished vigour, & the charge of an Assistant Engraver dispensed without any increase

of expenditure beyond the average appropriation
of the last five years.

I have the honor to be
With great respect

The President
of the U. States

p Ship Ardent, to Portland 316⁰⁰ " 1/2 p/c of policy 1.16
\$ 21⁶⁶₁₀₀

Received Payment
for the Union Insurance Company
of Philadelphia,

Wm Roberts Secy

Boston Sept. 20th 1825

Dear Sir I herewith send you a piece of Platina which belongs to Capt Joseph Jackson of this place who states that it is a very pure piece & requests me to ask the favor of you to send me a check on the branch Banks for the proceeds, not doubting but that you will allow him the full extent of its value - It weighs 278 gr. 4 dwt -

Very Respectfully

Your Obedt Servant

H. E. Roll

West of the United States
Philad. Sept. 19. 1848

Sir

Yours of the 4th. inst. enclosing a
small specimen for examination, ~~has~~ been at
hand for some days. ~~It~~ has been examined so
far as to ascertain its character satisfactorily. ~~It is~~
~~nothing more than a fragment of a very fine~~
~~crystalline substance.~~ Similar specimens have often
been ~~presented~~ ^{exhibited} here, under the same expectations which you
have entertained. Small quartz pebbles, ~~and~~
~~some~~ ^{some} as stony material tinged by a ~~small~~ por-
tion of iron, ~~and a little~~ ^{and a little} mica, which afford the
shining particles, ~~for~~ ^{these} are its principal con-
stituents. Nothing is contained in it, ~~for~~ ^{as} appears, ~~that~~
~~would~~ ^{justify} ~~draw~~ ^{draw} ~~any~~ ^{any} ~~of~~ ^{of} ~~the~~ ^{the} ~~attention~~ ^{attention} ~~to~~ ^{to} ~~render~~ ^{render} ~~it~~ ^{it} ~~worthy~~ ^{worthy}
of your ~~examination~~ ^{examination}.

Respectfully Yours

W. W. Beatty Esq.
Hendricksburgh, Ind.

Barmit Gold & Silver Coins -

The division of the Mark of fineness
of 800000 into 12 Minors and
each Minor into 24 Grains and
the division of the pound of Gold
into twenty four Quilates, for
the purpose of establishing the grade
of fineness in Minors & grains for
Silver and Quilates for Gold is
noted in an Ordinance of 1588
in a book entitled *Porto de la*
Contratacion, (police book of
commerce) - Chapter 33 & 34 -

By Ordinance of 1730, the Law
of Spain, the standard of silver
is changed from 11 $\frac{1}{2}$ to 11 Minors.
In the Ordinance of 1742 changes
the division of the coins, restoring

the globe and Pillars, but the
change of figures mentioned by Kelly
in his Cambrian does not appear
in this at least appears to be made
to some former ordinances in
which it is probable the change
was established - No subsequent
change is noticed in the volumes
referred to in proposition of Mr. Meade,
nor any difference for different
demonstrations of the same.

Pharmac. Aug^o 29 1826

Mr. Ho. J. [unclear]

Wagon been made for my late D. horse, being 10000
D. promotion - mounted about 1800 -

1826

The two Houses and L^{ts}. I offered R^d.
summed to Mr. Burroughs and Mr. Armstrong, 1300 dollars
and the division I had ^{then} in my mind was for the Norton
House 2 R^{ts}. 850 dollars and the following gentlemen 450 -

On full consideration however I am of the opinion that
it is not the true proportion, 800 and 800, or more near
considering the value of the upper lot - the lower one may
therefore be offered at \$200 above if the purchaser desires
it - or the other below at 500 - ^{The purchase of} 100 ft two rods wide
^{between} the bottom of the lot which I gave to the Church and the
upper end of Armstrongs Lot will be conveyed with ^{the latter} of which we will
make it convenient to cut off a good building lot from
its upper end - If both are taken a road could be made ^{across}
along the upper end of Armstrongs Lot 10 or 12 rods
convenient access to every part of those premises and leave
off the good building lots above the road

SHIPPED in good order and condition, by James Rush Treasurer of the said
in and upon the Schooner called the Rush
whereof William Trefethen is Master for this present voyage, and now
lying in the port of Philadelphia and bound for Portsmouth, N. Hampshire
To say,

Seven basks containing Twelve Hundred & sixty
Dollars in Copper coins

Being marked and numbered as in the margin; to be delivered in the like good order
and condition, at the aforesaid port of Portsmouth, N. Hampshire (the danger
of the seas only excepted) unto Eleazer Wentworth Cashier or to his
Assigns, he or they paying freight for the said goods.

For 3700 Dollars for the whole

with primage and average accustomed. IN WITNESS whereof the Mas-
ter or Purser of the said Schooner hath affirmed to this Bills of Lading,
all of this tenor and date; one of which being accomplished, the others to stand void.

Dated at Philadelphia the min day of Decemr 1820

Wm Trefethen Jr.

Spec. Grav. of Gold coin varies according
to prop. of silver and copper in alloy - then
Gold ~~stand~~ made stand by silver alone is 19.329
by silver and copper 17.344
by copper alone 17.154
Spec. Grav. of fine hammered
Gold may be stated as 19.3

Spec. of Gold differently alloyed -
Gold made stand by copper, copper less loss
by wear than gold made stand by copper in alloy
The loss in wear is great in proportion -
Great quantities of gold & copper under loss
by wear by wear than copper alone -
Loss in various alloys equally profound
Gold 23.3 1/2 fine - 4.20
Gold - stand by silver .10
" " by silver & copper .10
" stand to 18 carats by copper .00
" stand by copper .00
" stand by fine copper 15.30
" by silver & copper 21.60
" alloyed with silver & copper 65.75

| | |
|---|------------|
| Stamped piece to exposed as the form | |
| only to about 1109 the same small of material | |
| Gold Standard. by copper | last 35.00 |
| by silver copper | 1.20 |
| by silver | 3.50 |
| Hand Silver | 3.70 |
| Gold 23.3 $\frac{3}{4}$ | 4.60 |
| Gold unknown to 18 lbs. by copper | 4.80 |
| copper | 46.30 |

From the whole series of trials the following Genl. results are observed -

- 1 Stamped gold is the pure or alloyed
was ~~more~~ ^{for coin} purer than ~~the~~ ^{the} ~~others~~ ^{others} -
2 fine gold is too ductile - all its round
parts are ~~too~~ worn flattened worn before
they are stamped - & it appears under
eye at circumstances to suffer more by
wear than gold ~~alloyed~~ made stand by silver
by silver & copper or by copper - fine
gold acting as fine gold alone in the ^{hand} every
circulation seems inclined ^{how long} to wear ^{sooner} ~~than~~ ^{than} stand. Gold but this is not the fact
the mixed coins act on each other. -
3 Gold ~~alloy~~ made stand by silver, silver
copper or copper alone wear generally
more usually but on the whole this

the alloy of this is supposed to be pure
gold - gold of 18 carats means ~~one~~ part
pure stand. gold -

4 Stems like above, nearly as much
as standard ~~to~~ fine gold and more
than ~~to~~ gold much standard by silver
clapper or by copper and less than
gold much standard by copper.

5. The *Silene* was much less than
copper -

6 Copper against Copper wears ~~much~~
far more than the ~~the~~ stand of iron
& then exposed to Copper suffers as well
as the Copper a considerable loss -
thus Metals most subject to wear pro-
duce the greatest loss in other Metals
rubbed against them -

When soft gold is hard gold rubs against
with other the greater loss is sustained
by the hard gold -

Soft cold rubbed against soft cold
better than hard against hard.

9 When coin of equal quality sets are
used other the loss is in variety as the de-
bitility

10. When coins of unequal quantities
are assayed then the more ductile is
won by the hammer.

11. That casting powder, made of the
kinds of gold in proportion to their
ductility - the more ductile the more soft.

12. When a copper on the last alloy
of gold, is added, keep it thin on both
of them than it is sufficiently ductile
but gold of 18 car. with copper is too
hard to roll & stamp well.

13. Gold alloyed with silver alone is too
hard - it is very ductile - may be stamped
without annealing - & its surface often blanch-
ing with the silver solution is still stand-
ard - but it suffers the deformed parts to
be flattened ~~the~~ ^{quite} nearly like gold.

14. Gold with silver & copper is on the whole
the best - sufficiently ductile & strong - makes
bars of pure gold - because both these gold is the
best by separating a large amount by the blanching process
held - when the copper is added - is brown not

15. Gold with copper alone too soft & strong
is better - it is ductile & if the copper be pure
though slightly harder than the other two - is
black when annealed & difficult to clean & the
blanching process requires more than of the surface
by dissolving the oxidized copper leaving a thin layer
of pure gold - in some varieties of pureness some more
than others but the silver & copper difference

To respectfully
 present to
 the Public
 the following
 names of persons from various
 states & territories in part for public land
 title of my pamphlet & in conference before
 the public & it is intended to be a book
 from weekly issue.

The anomaly arising from
being unable to find coins
which do not correspond
with our list - and the
removal of this coin
it is presumed will be
understood - the number
of coins found was much
larger than due to protect the
bank from fraudulent calls
but this anomaly it is pre-
sumed no longer exists. All
the remarks on the insuffi-
ciency of making any foreign
coins accounts are applica-
ble only to those where coins
corresponding with our denomi-

The anomaly arising from
being unable to ~~find~~ coins
which do not correspond
with our list - and the
hypothesis being
it is presumed will be
solved - the number
of coins found was much
larger than due to the total the
bank from various calls
but this anomaly it is pre-
sumed no longer exists. All
the remarks on the insuffi-
ciency of making any further
coins accounts are applica-
ble only to the future coins
corresponding with our demand

is not possible - if ^{wanted} old ^{be} with -
drawn from circulation for the sum
more than ^{might be} ^{by} ^{drawn}
being hoarding this ^{might be} ^{by} ^{drawn}
could be produced -

From the weight of coins in
circulation a deduction could be
made of the unproductiveness attached to them
or that in an a few years time
is left than 1/2 of ^{on dollars} ^{and does}
not appear to increase much
after that period.

The above explanations need to
be taken to show that this relation is required
to make the consequences of the resolution
as far as they involve questions of fact
demonstrable by trials or the operation of
reasons a topic of no interest ^{in itself} ^{to the}
^{public} ^{claim} of the resolution as I think it is
made incumbent to express an opinion on
the subject. In offering this brief explanation
to the committee I think the pending investigation points to
that the relation I have been directly to place from them

An absolute legal tender by tale happens
but the Gov. would ultimately call in the loan at
the proper change - this surely ought to be done in
an even loan on one of the principles by which the fund
should be kept and a well-humoured, an object of
the utmost importance & importance in the Gov. as to the
the interest - On this point Gov. are cautious about making
for loan - legal tender by tale / loan and Gov. will not
allow it - for when the loan is called in, it will
be the same as the loan of money, which is the only
thing that may be a legal tender in the loan
this loan is not a legal tender against issuing gold by the Gov.
weighing of value is in consideration -

A measure of movement in such a country as ours
where paper will always form a part of the currency
is to make its basis ^{as far as possible} as far from fluctuation as possi-
ble - a fluctuating basis like gold changes too rapidly
- a more fixed basis forms a basis that is more
stable by affording time for counteracting influences
to intervene & counter the influence of gold as a
small step rather than ship the metallic basis of the
currency - It may be said that gold is a fluctuating
medium as an interest & a loan from abroad
to supply a demand but this happens that the
loan is only lent and is secured with one hand
Lend & there is no loan by the rapidity with
which gold can enter may then supply the demand
if this be the case the making it a loan as a loan
by weight is a loan from the Gov. as to the Gov. will
the Gov. supply as the Gov. will supply the Gov. will
the Gov. supply as the Gov. will supply the Gov. will
the Gov. supply as the Gov. will supply the Gov. will

nothing sold current as soon would be
obtained with any considerable advance in
the proportion of its value to silver - following
it can not be thought of these four, and there
be made higher than any other. - Her might
indeed ~~be~~ get a good currency by increasing
largely its value but it would be by exporting
our silver.

Even though the public bear the con-
sequence of carrying on, they should also
bear the expense, since the advantage
is taken in other cases. - The fact is the
people the operation is for the public good
in preserving a firm currency always under
the control of the Govt. & liable to no
fluctuation in value from the constant
occasional changes in foreign markets.

The above & several reasons are sub-
mitted because the resolution is considered to run
from the duty to do it & consequently the sub-
ject has been carefully considered. - To the
fact money would have been more easily obtained
to still further only but under the impression enter-
tained their opinion is fully given & with this
liberation in mind if they contain a full and true
history to which they are to be printed well stated
in.

Money in South. Brit. Empire.

Liverpool says that 15 ²⁵/₁₀₀ for gold was too high
the silver being ¹⁰⁰/₁₀₀ ~~valued~~ ^{valued} at the melting pot -

In 1781 a 10 was taken from the mint of the
Bank of England in London which brought the
mint price of gold to the market price, gold
and silver being both a legal tender.

The 56 ¹⁰⁰/₁₀₀ 3 - the rate taken for silver
is 56 shillings instead of 52 and of the pound
King, 4 shillings being retained as ~~the~~
difference which is $6 \frac{11}{32}$ per cent.

(Given over any for silver to circulate in
the State has been done by a business.)

- Carriage of gold may be 2 per cent
with present machinery of England. - Silver 1%
In France gold is 24/100, silver 1% - Copper
5% for gold, 1.5% for silver, silver 2.9%.

Quantity of English gold 12 grains per
pound in 1781 & 10 carats in 1789 - and
for silver two per cent ~~per pound~~ ^{per ounce} fine silver in
the the pound - Gold was raised in 1815 to 2
hundred parts to one upon 30 grains in the pound.

- 108 million ^{sterling} gold coined in 136 years from
conquest of James 2. - No hypothesis on gold
since Charles 2. - Annual expense for 136
years £12,000.

Gold & Silver currency of S. A. say 20 mill -
Selling - Paper 75 mill. Paper 18 mill of
Austrian Monarchy 100 Paper 5 1/2, Paper 7 1/2
in all Europe say 20 mill - Annual pro-
duct of Gold & Silver in all the world 445 mill.
Hollars -

The Government of the Bank of England introduced
gold coin circulating in England in 1794 at
20 mill - supposed within 1 year - at the same
time say 5 mill. in Bank - say 25 to 28 mill.

A Committee on Banknotes was also introduced
the same year in 1805 at 70 mill -
say it would be safe to say 100 million. Silver.
Review part of the -

Like Harris & Ricardo for Silver Standard.
Ricardo for Gold & the Standard should be made so
to be used in small transactions as well as large
payments -

There is now Shaplinian money - money
might be used in Spain to weigh gold in order to
weigh ~~for~~ ~~the~~ ~~same~~ ~~purpose~~ - ~~the~~ ~~same~~ -

Coin when some other metal
the surface is raised - another matter falls
the interest of a more perfect paper after
would be by attention - if new coins come
quickly to a certain degree & slowly after
wards - hence the small coins part of the
Spanish dollar ought to be retained -
they are the full value of 10 cents
than any coin - the loss is not over
there & one than dollars have not
and the light metal variations from
the present standard beyond the limits
of ordinary remedy - this also is true
of gold coins when the remedy is not
used on the average deliberately valued
to its composition -

Various kinds of ~~metal~~ are often
used - some are coins & some are
denominations all tried - Hottel's
experiments on ~~various~~ & ~~various~~ -

By the same accounts, nearly two
have undertaken the restoration of Green &
Alloy without interfering with the conserva-
tion of the alloy. It may be stated as to the
I should exceedingly satisfactory to me that
that the note in their report which refers
on too suggested to them nations & which are
from construction were full and rather
Miss system of the Alloy States contains
Copper plates & the Alloy of Gold, the latter
are now in various proportion to the former
to be decided by the character of the bellows
which may always be considered as containing
a minute portion of silver which it is not
desirable to extract unless it should seem
to me that are only the Alloy in which
can not easily compare the beauty of the
gold colour. The ^{only} alloy of silver
is copper. All nations of which the
Miss system have been consulted were in
this & the proportion has been evidently
taken from the proportion which is held in
nature to a certain degree the silver has doubled
sufficient for business & does not impair
the proportion of silver.

The Muncie Law was forwarded on
Mr. Haverstick's Report which stated
The Govt. Span. Molds, containing three
in the community at 116 pairs of Thund.
and 370 ¹³³/₁₀₀ fine — one actual
thunderbolt contained that much and
is ~~not~~ ^{of} ~~fine~~ something over — if
thunderbolts are proper a fine Thund. we have
no reason to complain — a perfect identity
of material ~~fine~~ specimens under the ~~same~~
sprays of diff. nations could not be
obtained — if our losses are actually
the finest were in a metal stage if
at all to be desired they would have the
location & the Span. if we were to
wound our own — even at the time
standard our losses nearly minted
would amount to those of foreignness of
a few years back & would be reported
having the these minted coins in their
room — this is to be avoided by making for
copper coins etc. at a rate which they

to protect them toward our
rights and subjecting them to an
Army annually in order to secure
for us some form of compensation
a large island - this is liable to
lead to the want of having a con-
siderable portion of our land in
the hands of a few. Should the
Government take the property
of our citizens and give it to
the Army and subject it wholly
to its own legislation - yet as these
citizens have adhered to their ^{land} and
for more than half a century, then the
their good has certainly done us a
great deal of good, then it is little
practical danger - the danger which
exists will actually be increased by
abolishing consent. ~~the~~ ^{the} ~~of~~ ^{of} ~~and~~
there is a diff. between our will and
that of our people from
inconsistent legislation

Phlegmaria glauca

The latter having with regular consent
of the original purpose of maintain-
ing the market at the public expense for the
purpose of national currency with a view
of discussing matters and disappoint-
ments then adhering to the original
ratio of gold to silver when strong influen-
ces and very influential opinions were
arranged on the side of a change.
in which strongly a better purpose of
maintaining the currency of the country
on a basis which was fluctuating
& it may be feared that the currency
then created when actuated by long
and wide he called in at the public
house then presenting the appearance
of a measure of value which
was uncertain which is not inherent
in the currency it has with all
other things the theory of value
by comparison in the generally pro-

stand from the South - It can
not be imagined therefore that a
single coin will be adapted as
to value & legal obligation to call
in and renew them when impaired
by all - such a measure would ob-
viously involve the renewal of the
mint without coins in circulation
on the principle of the ^{gold} which
would be carefully reported into
the country where the value
of the coin should be determined and
conformably to this provision foreign
coins have never been made current
absolutely by law their currency
has always been referable
to a fixed weight and standard
such as would make them equi-
valent to the coins of the U.S.

The production of gold from
the South being in no fixed pro-
portion to the proportion
in coin can not be with cer-
tainty so adjusted as to
maintain its relation for any
considerable time -

On the whole it is presumed
that to make the gold coins in
the South ~~and~~ by U.S. at the
relation proportion to the coins of
the U.S. will involve no danger
of operating there is capital of being
available in circulation in return
of coin means a habit to no means
will be only the only the confirmed
are likely to ~~have~~ ^{have} them in possession
to any considerable amount to make
them into coins of which the mint
occupies with great care a great trouble

at last a note that they will
be due the specified volume in U.S.
dollars without ^{in pairs} ~~reference~~ to the de-
positor equivalent to the delay of
coinage - and to make the holders
of these dollars a legal tender
in cases not exceeding ^{dollars} two per-
cent in any one payment
and not give any part of the
deposits paid would be
a public law measure and ha-
ble to no public inquiry - no
report from the attor policy
heretofore pursued with relation
to the money basis of our
circulation -

to ascertain the
variation of the water

Agreeable to my directions I have made a variety of experiments to ascertain as nearly as possible the quality of foreign Gold & Silver coins now circulating within the United States & find the average result to be as follows viz-

Gold Coins

| | |
|------------------|---------------------------|
| Holland Ducats | 23 - 2 $\frac{1}{2}$ fine |
| of Great Britain | 22 - 0 |
| " Portugal | 21 - 3 $\frac{1}{2}$ |
| " France | 21 - 2 $\frac{1}{2}$ |
| " Spain | 20 - 3 $\frac{1}{2}$ |
| " Mexico | 20 - 3 $\frac{1}{2}$ |
| " Colombia | 20 - 3 $\frac{1}{2}$ |
| " Chili | 20 - 3 $\frac{1}{2}$ |
| " Laplata | 20 - 3 $\frac{1}{2}$ |
| " Brasil | 21 - 3 $\frac{1}{2}$ |

Silver Coins

| | |
|---|--------------|
| of Great Britain | 11 - 2 - 0 |
| " Portugal | 10 - 15 - 12 |
| Crowns of France | 10 - 18 - 12 |
| Five francs ditto | 10 - 16 - 0 |
| of Spain before 1772 - (Dollar Coins) - 8 pts 2 to 1 $\frac{1}{2}$ pt | 10 - 18 - 0 |
| ditto from 1772 to 1788 | 10 - 15 - 6 |
| ditto - 1788 to 1824 | 10 - 15 - 12 |
| ditto Cross Pistareens | 9 - 15 - 0 |
| ditto Head ditto | 9 - 15 - 0 |
| Dollar of Mexico | 10 - 15 - 12 |
| ditto Central America | 10 - 15 - 12 |
| ditto Peru | 10 - 15 - 12 |
| ditto Chili | 10 - 15 - 12 |
| ditto Laplata | 10 - 15 - 0 |
| ditto Brasil | 10 - 15 - 12 |
| ditto Colombia | 9 - 0 - 0 |

Director of the Mint

Mint of the United States 19th Dec^r 1826

Joseph Richardson

Assayer

NB. The alloy for gold coins consists in general of a mixture of silver & copper in various proportions imparting a high or pale colour to the coin as one or the other maybe in excess. Copper alone is the universal & proper alloy for silver a minute portion of lead is sometimes perceivable especially in the South American coins but is never intentionally made use of as an alloy.

Sir

I received a short time since your letter of the 9th of August, and shall feel much pleasure in complying with your request to the best of my ability.

As soon as I can procure the necessary information & assistance I shall set about effecting the object you desire, & you may depend upon my punctual attention to your directions as well in regard to the manner of copying with precision the weight of the standard as of authenticating and transmitting the copy.

I have the honor to be, Sir, with great respect & esteem

Your very faithful & obed^t serv^t

Madrid Dec. 28. 1826.

A. H. Everett.

Sir,

Receivers Office
St Louis Mo 10 Sept 1825

In reply to your letter of 11th ult. permit me to advise that the foreign gold coins current in the district are those of Great Britain, France, Portugal & Spain, and those of Silver are Spanish milled dollars, the Crown of France, five franc pieces and Mexican dollars. A small amount of any of the Gold coins however, in circulation, and I should suppose that the payments made in foreign gold, bear a proportion to the whole amount of other monies rec^d, at the lowest calculation as one to a thousand; for the money generally paid for the purchase of Public Lands in this District and the Bills of the Bank of the United States & its branches & Spanish milled Dollars — with a few ^{of} Crowns, Francs, and Mexican Dollars, the three last being extremely limited.

No denominations of Gold and silver coins of the Republic of Mexico & of the then new Governments of Spanish America, are in circulation in this district, except a few scattered Mexican dollars as mentioned above which are rec^d at the same rate as Spanish milled dollars.

Respectfully Yours Sir
Chas. Pratt

Chas Pratt Receiver

Samuel Moore Esq^r
Director Mint U States
Philadelphia

Samuel Moore Esq
Director of the Mint
of the United States.

Office U.S. Bank U.S. States
No 10 12 Sept 1826

Sir Your communication of the 30th of June last respecting foreign Gold and Silver Coins, has not been as promptly attended to, nor is the information which I am enabled to give as satisfactory as I could have desired; but so far as the state of our vault, which embraces every variety of foreign Gold & Silver Coin that circulates in this quarter, has afforded information, I have availed myself of it, and accordingly to your instructions, filled up the list as ^{is} headed by you.

It would have given me pleasure to have extended the return herein made, but the present state of my health will not permit that attention to the subject which might have rendered it more useful to you.

The first three points of your letter receive their answer from the list - the 4th & 5th relative to Spanish milled Dollars & the divisions thereof; Pistareens, the dollars of the new Governments of Spanish America &c. &c. - with respect to these I have to observe, that the Dollars of the new Governments being of the same weight of the Spanish Dollar, I have been in the habit of receiving them at the same rate, say at 100 cents each - & the divisions of the Spanish milled Dollar in proportion, without reference to their actual weight - as to the Coins of Portugal & Brazil there are none in circulation with us - Pistareens have nearly ceased to

circulate - a few are occasionally received at the
rate of seven or eight cents & halves in proportion -

I am very respectfully

Yrs. Obedt Servt.

Luke Wheeler Cash.

Received Office Huntsville (Ala)
7th Sept. 1836

Sir
Your letter of 11th 9100, respecting the foreign gold
silver coins current in this District with the various
relative branches I have recd.

The circulation of all kinds of silver coins
for several years past, has been quite limited in this District.
The whole amount of Gold recd. in payment for Lands at
this Office since March 1833 has been only \$184⁰⁰ of
which \$81⁰⁰ was foreign, whilst the total amount of
Receipts in that Office is \$106,982⁵⁶.

All denominations of foreign silver coins appear
hard in the small amount in circulation, & as far as the
silver coins of the New Republics of the South are concerned
these principally of Mexican Dollars which are received at
the same rate as the Spanish - Gold coins from the
same quarter is very rarely to be met with - & valued the
same as that of the corresponding denomination of the

Bank of Michigan
Detroit Sept 26 1824

Sir

In the absence of Messrs. Linsley I have been re-
quested to reply to your Letter of the 11th Aug^r addressed to
him. The denominations of Gold & Silver Coins in circulation
here are British Guineas & parts, Sovereigns, Spanish Doubloons & parts,
French & Portugal gold - Crowns, Half Crowns, Francs, Span-
ish dollars & parts, British Silver coin & parts.

The Am^t of Gold ac^d for London since 5th March 1823
appears from the Books to be as follows - from 5th March to Dec-
31. \$712.94 - 1824 \$1136.90 - 1825 \$344.53 - 1826 \$148.84
Silver from 5th March 1823 to Dec-31. \$3,066.15 - 1824 \$5398.13 - 1825 \$4444.57
1826 \$1813.69 - I have no means of ascertaining the amount
of Foreign Coins included in the above.

The British Silver Crowns are a lawful tender in
Canada at 115 Cts each - the Shilling at 23 Cts the 6 at 11 1/2.
They are not at the Bank and Land Office at those rates.

Spanish Doubloons are not at 15.25 - those of
Mexico at 15 p^r - The Patriot dollars are not not at
the Bank. There are however but few in circulation.

The principal foreign Silver coins offered are the
Crown which are not at 109 - 5 franc pieces at 95 1/2 - Pistoles
at 18 1/4 - Span dollars & parts.

Samuel Moore Esq^r
Director M. W. B.

I am Sir very respectfully
your Obedt Serv^t
E. P. Hastings Esq^r

Receivers Office

Jeffersonville Ia. Sept 20. 1826

Sir

In answer to your letter dated the 11th ult -
My appointment to this office was in June 1824 -
of course can give you no account of the description
of funds received for lands previous to that period.

Since I came into the office no foreign gold coin
or to a very trifling amount has been received in this
office, a small amount of gold coin of the United
States has been received. As near as I can now
recollect. about one half of the receipts have
been in Spanish dollars - and the other, in United
States Bank notes - some Mexican dollars are
in circulation, and are received as Spanish - also
some U States half dollars - And a few notes
of Eastern Banks - I believe not one piece of
gold coin of the New Governments of Spanish
America has been offered at this office.

Respectfully Yours Obedt

Sir

Office Bank U States,
Providence Nov 7th 1826

I duly received your letter of June last
on the subject of the Gold and Silver coins in cir-
culation in the United States.

On the subject of Gold coins it will not be in
my power to give you any information whatever,
excepting to state the fact, that there are none in
circulation, or at least none received by the Banks.

The value of Gold coins above the legal or nominal
rates at which they have hitherto been received, is
such as to make them exclusively an article of
Merchandise; This rate varies from one, to three
or four percent on the nominal value.

In this place there are a considerable number
of Jewellers, who annually consume a large amount
of Gold dust as Imported, as well as coin; and
when manufactured, the articles are distributed
~~over~~ over the United States.

The Silver coins used for circulation and received
by the Banks, are Spanish dollars and pinto,
French crowns and Francs.

The Spanish dollar paper for one hundred cents

and parts at the same rate without reference
to their weight.

The dollars emitted under the authority of the
new Government of South America are beginning
to be received at the same rate as Spanish dollars.
We have not observed any parts of these dollars
in circulation.

Portuguese and halves are received by the Banks
only in making change (but not in any quantity)
at 20 and 10 cents.

There are no silver coins of Portugal in circulation
or received by the Banks.

I am very respectfully Sir

Your obedient

Attorney General

P.S. I enclose the form you sent us, with
the Blanks filled as far as practicable.

Samuel Moore Esq
Director of the Mint
of the United States
Philadelphia

Mount of U. States

Apr. 17. 1826

P.

On the receipt of Mr. Wentworth's
note to you of the 9th. reporting a defi-
ciency of \$10⁰⁰ in the cash of Half Cents
forwarded to the Postmaster's Office, sup-
posed to contain \$80. — I have to re-
mark that the weight here ~~is~~
~~is~~ as appears by our entries, was
forwarded ~~with~~ that, being, this comes down
of current and weight, strongly in dis-
tance that the package was right when it left
the Mount. The post of cloth mentioned
was introduced to prevent the coins moving
too freely among themselves.

The cash we doubt not arrived
safely. It is therefore submitted, that the ~~the~~
being opened and kept ~~the~~
~~the~~, it may not be con-
sidered that the same deficiency was caused
before the contents were ~~sent~~ and
for the purposes of the Bank, without

minutely noting the amount.
 If ^{Lower} ~~an~~ full consideration it shall
~~be given~~ ^{be given} that this is more improbable
 under the circumstances, than that the
 error has ^{arisen} ~~been~~ the difference
 will be unfounded, though in Whistler's
 the Words should be expunged
 from along this after a passage
 is not excessive in delivery. It
 is ~~degraded~~ ^{degraded} ~~by~~ ^{by} ~~the~~ ^{the} ~~use~~ ^{use} ~~of~~ ^{of} ~~the~~ ^{the} ~~word~~ ^{word} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~ ^{is} ~~not~~ ^{not} ~~improbable~~ ^{improbable} ~~that~~ ^{that} ~~the~~ ^{the} ~~error~~ ^{error} ~~is~~ ^{is} ~~not~~ ^{not} ~~excessive~~ ^{excessive} ~~in~~ ⁱⁿ ~~delivery~~ ^{delivery} ~~it~~ ^{it} ~~is~~

Sir,

I have your letter of the
28th ult. I will with pleasure communicate as much
of the information therein requested as may be
able to obtain, & transmit it to you, according to
the form received from you, at as early a day
as practicable. I fear however that the
very limited & scarcity of Garriga gold & silver
coins in circulation in this Section of the
United States, will scarcely admit of my adding
any thing to the stock of information you will
receive in regard to them from the circulation
of the Union.

Very respectfully,

Yours obed^t

C. Nicholas Cook

Sir, your obedient servant,

W. T. Tucker

Treasurer of the United States.

James Rush Esq
Treasurer Mint

Office Bank United States
Savannah 19th July 1826

Samuel Moore Esq

Director of the Mint of the U.S.

Sir,

I am in receipt of your letter of the 30th this morning accompanied by one from the President of the U.S. of the 21st upon the subject of Foreign Gold and Silver Coins and requesting a report of them most generally in circulation their value, and whether passed by weight or tale, I am much afraid of not being enabled to collect materials enough to afford that information you desire, or which I am so anxious to furnish arising from the almost total absence of Foreign Gold in circulation and not being in the possession of either French or Spanish having recently shipped the same to the Bank of the United States. I should have selected a sufficient quantity for such a report.

Foreign Gold no matter of what specie or coinage is classed into three divisions, and received or paid by weight by all our Banks and this Office vizt

Great Britain & Portugal at 89^{cts} for Gold

France " 87 " "

Spain, or Spanish America whether
of the old or new governments

reference to date of coinage 84 " "

Foreign Silver in more plenty & passes by tale vizt
Dollars (of Spain) whether of the old or new governments

paper by tale at 100 Cents and the divisions thereof in proportion
without reference to weight. This includes the dollar of the
Spanish Government or Provinces in America, as have no
Brazilian Coinage amongst us

| | |
|------------------------------------|-----------|
| French Crown at tale | 109 Cents |
| " Dollars at weight, or tale at | 50 " |
| Francs of all Coinage | 9570 -- |
| Portuguese not much in Circulation | 18 |
| Dollars | 6 1/4 |

In a few days I shall however furnish the best
report in conformity with your instructions within my
power, and when so completed will forward it as
you direct to Mr. Clark. I have the request of your
highly command my best services. Dear Sir

Respectfully

Your Obedt Servt
J. M. M. B.

What foreign gold and silver coins are found
in circulation ^{within} the districts mentioned.
What are their usual rates - at what rate per penny weight
are the gold coins valued - if they pass by tale at what
value do they pass usually -

Are any of the gold or silver coins of the three
Governments of Spanish America or of Brazil
current ~~with you~~, if so are they used at the same
rates as the coins of the same denominations issued
under the colonial state of those countries by the
authorities of Spain & Portugal respectively.

Do Portuguese and the halves thereof pass
anywhere and at what rate, within the range of your
observations. Please to specify particularly the British
~~in circulation~~ ^{coins} gold & silver which ~~pass~~ ^{pass}
from the vicinity of Canada ^{through} into your country by popular consent.

Information on the above points will confer
a favour -

W. Page Esq.

Comparison trial of coins Aug. 5. 1826

| | | | |
|--|----------------------------|--------------------------------|-------------------------|
| British Gold tried by 12 Oz. W ^t | 11.3.6 | by Am. Standard W ^t | 11.2.22 $\frac{5}{13}$ |
| Carolus | 10.16.12
<u>W. 6.18</u> | " | 10.16.4 $\frac{5}{13}$ |
| Pollux | 10.17.6
<u>W. 4.0</u> | " | 10.18.16 $\frac{5}{13}$ |
| 5 francs | 10.17.6
<u>W. 6.0</u> | " | 10.16.22 $\frac{5}{13}$ |

| | | | |
|----------------------------------|--------|----------|-------------------|
| British Standard 11.2 - too high | 30 lbs | too high | 22 $\frac{5}{13}$ |
| Carolus dollar - 10.15 - " | 36 | " | 28 $\frac{5}{13}$ |
| 5 franc piece - 10.16 - " | 30 | " | 22 $\frac{5}{13}$ |

Pollux dollars are uncertain - by the Laws of Spain they ought to be 11 from 1730 to 1778, but thin purity seems to have been diminished in practice towards the close of that period which occasioned a change of standard to 10.15 in 1778.

The difference in the above results derived from a trial by the 12 Oz. W^t and by the Standard W^t, is
in British silver - $7\frac{8}{13}$ grains
Carolus dollars - $7\frac{5}{13}$ "
5 francs - $7\frac{5}{13}$ "
Pollux dollars - $13\frac{8}{13}$, the last is probably an error in the weighing.

As the above trials give nearly the same ex-
ap above the standards of England. These and others
it is a strong indication that some attention on our part
is necessary & the most accurate examination is expected
to determine when it is. It is nearly impossible that
all these Nations make their silver coins about the
standard - I wish a few more comparative trials made.

J
T. M. MOORE

~~CONFIDENTIAL~~

Office Bankers
Pittsburgh 7 August 1866.

Sir,

I have received your communication of the 1st of June last, and regret that the means within my reach are not sufficient, to enable me to furnish such information, as I should deem satisfactory, on the subject of foreign gold and silver coins, now current in this section of our country.

We keep in our vault, such an amount as would be equal to the probable demand on us; the balance is remitted to the Parent Bank.

The foreign gold coins, at present in this office do not exceed in amount \$100, and they are exclusively British.

With respect to their value and the method of ascertaining it, we are governed altogether, by the practice at Philadelphia.

I have endeavored to fill up the blank form, which was enclosed

in

in your communication, but I found the information
so meager, that I have thought it best, not to
transmit it

I am very respectfully
Yours obed^t serv^t
J. Leroy Cobb

I am please by
Post at Mont
Phila^a

Minist of the United States
Philad^a Aug⁵ 1826

Sir

A resolution of the Senate of the U. States calling for a report relative to the foreign gold and silver coins, current in ~~any~~ any part of the U. States, renders it desirable to obtain information from authentic sources, on certain points which your official response must bring within your notice.

Permit me therefore to request of you the favour to state what denominations of foreign gold and silver coins are current within your district. More especially be pleased to inform me what amount of foreign gold coins has been used in payment for public Loans therein since the passage of the Act of March 3^d 1823 making certain gold coins a legal tender for that special purpose. If the amount used in each year of that interest can be designated the information will be still more valuable. If this can not be accurately done please to state it as nearly as may be, and also the ^{whole} amount of payments used within the same period in all ~~other~~ descriptions of money.

Are any foreign gold coins current in ~~any~~ any ~~part~~ ^{part} of your district? If so please to specify them & their current value.

Are the doubloons of Mexico & the other Republics of Spanish America used at the rate of the gold coins of Spain - Are the Holland of those New Governments used at the same rate as ordinary Spanish dollars?

Please to drop an address and enclose your correspondence under cover to the Hon^{ble} Robert Smith, Secy of the Treasury, Washington.

Very respectfully

Yours &c

J. M. Wood

Wm. Brown

TREASURY OF THE UNITED STATES,

Washington, Aug. 7th 1826

SIR,

Enclosed you will find my draft No. 9047 on the Bank of the
United States, for dollars, 6. 500 — the amount of
Warrant, No. 136 issued by the Secretary of the Treasury, on receipt
whereof be pleased to favor me with an early acknowledgment, specifying
the sum received.

With due consideration, I am,

Sir, your obedient servant,

W. J. Tucker

Treasurer of the United States.

James Rush Esq.
Treasurer Clinton.

Perth 20 Aug 20 1868

Dear Sir

Mr. Geo. Whitcomb, cashier of the Merchants Bank,
handed us this morning your letter of the 18th inst, respecting the certificate
given for a deposit in our favour being protested, and asking a reply why that
course was taken.

On the receipt of the certificate from Capt. Hall, we were told that he was
informed it would be taken at either of the Branch Banks, and as we understood
the same as a sight, bill or draft, and proceeding from the tenor of the certificate giving
nothing to the contrary, that it was payable in demand, we accordingly paid it at
the Merchants Bank, being to a brother for remittance to Glasgow, a few days
after on the brother receiving a letter from his correspondent we were informed that
it was half a per cent discount, we supposed it intended there was no objection, and directed
them to send it to the Mint, without any delay but that it would be paid on being
presented, it being the first business concern that we have had with the Mint of
the U. States, we were entirely ignorant of the law or regulations of that department.

In this transaction we have no hostility nor any unfriendly feeling whatever, but as
it appears there was some on the part of Mr. Whitcomb, the Cashier sent to the Mint
and we turn out so much as we expected, a small quantity of it, we have obtained
here and returned at 90 p. cent the 18th inst. your amount given in the certificate is about
\$1000.00 the 10th by our weight, but there was 1867 10.00
1876 10.00 in return silver

We think there may be an error, we thank you to have it examined a little
further.

Yours Obedtly

Henry May, Secretary

Statement
relative to the foreign Gold and Silver Coins circulating
in Charleston, South Carolina and its vicinity.

| Questions | Answers |
|---|---|
| 1 st What foreign Gold Coins are used in circulation or received by the Banks within the range of your Observation. What are the dates thereof most frequently observed. What the oldest & what the latest dates noticed. | 1 st British, Portuguese French & Spanish gold Coins as stated in the list annexed, are all received by the Banks, but bearing a premium in the market for exportation or remittance, Gold of any description is rarely seen in Circulation. For Answer to the other points see list annexed B. |
| 2 ^d At what rate & date and those Coins now received - If they pass by tale at what Value do they severally pass - Are the Gold Coins of the new Government of Sp. America received at the same rate as the Gold Coins of Spain? Are those of Brazil of the latest date used at the same rate as the Gold Coins of Portugal? | 2 ^d For the rate, see list B. They pass by weight. - Claspions, single and double, being of recent coinage and generally full weight, sometimes pass by tale at the Value stated in list. A. of the Gold Coins of the Sp. Am. Government have appeared in this Quarter - They pass for equal Value with the Coins of Spain. No Specimens of Brazilian Coins. |
| 3 ^d What foreign Silver Coins are used in Circulation or received | 3 ^d Spanish, French and Mexican. For the dates, |

by the Banks. What are the duties of these coins most frequently observed? - What the oldest and what the latest duties noticed.

4th Do Spanish Milled Dollars pass at the rate of 100 cents & are given thereof in proportion, without reference to their actual weight? - Are pistareens and the halves of them current and at what rate? - Are the Dollars of the new Government of Spanish America used at the rate of the Spanish Milled Dollar, and are given thereof in proportion.

5th Are the Silver Coins of Portugal used in Circulation or received by the Banks, and at what rate? - Are those of Brazil of the latest date, used at the rate of the Silver Coins of Portugal.

See list B.

4th Spanish Milled Dollars, as also those of Mexico (the only Silver coins noticed of any of the new Governments of Sp. America) pass at 100 cents; and the parts of the Spanish Dollar in proportion, all without reference to weight.

Pistareens are current at $18\frac{3}{4}$ cents and the halves at $9\frac{3}{8}$; but they are taken at Bank, the former at 17 cents, & the latter 8 cents.

5th No Silver Coins of Portugal or Brazil are seen in the quarter, either in Banks or Circulation.

In May 1821, all the foreign Gold in possession of the Branch Bank U. S. in Charleston was remitted to England, by order of the Parent Bank; - The Shipment is believed to have comprised the larger part of the whole amount of that description of coin in Charleston at that time. After diligent enquiry just made, it is estimated that the total sum of foreign Gold in Charleston at this period (August 1826) does not exceed Twenty thousand Dollars, and that there is about an equal amount of American Gold Coins. This, however, is exclusive of what may be hoarded by individuals, which cannot be ascertained, but is believed to be inconsiderable.

From the general non-use in Charleston and its vicinity of the Copper Coins as change below the $1\frac{1}{4}$ cent piece, the dime or 10 cent piece is rarely seen in circulation, as it passes elsewhere than in Bank or the Post Office for only $6\frac{1}{2}$ cents, equal to a half of $3\frac{1}{2}$ cent. The remedy for this would be in the coinage of a sufficient amount for the purpose of circulation, if practicable in the present state of the Mint, of dimes and halves of dimes, and suppressing the 5th & 10th of the Spanish Dollar.

Holland N. 9 Aug. 1826

Sir,

Your favor of 3rd Inst. I have rec^d. and will endeavor to give you all the information in my power -

Very little Foreign Gold is seen in this State, since it has been at such a high premium - When it passes by Weight it is rec^d. according to the ~~last~~ ^{last} law of Congress but it more usually passes by tale & the value fluctuates as the premium rises or falls in N.Y. or Boston - This Bank has been in operation since 28 May 1825, & we have not rec^d. in all that ^{time} ~~has been~~ in the Bank 1200 Dls. & the most of that has been American Gold - I have never seen any of the Gold Coins of the new Governments of Spanish America or Brazil - Silver Dollars of Chili & Mexico are frequent and are rec^d. at the same rate as the coins dollar ~~quarter~~ under the authority of Spain -

Throughout the State of New York Pistareens & the halves go at $\frac{1}{16}$ & $\frac{1}{8}$ of their currency - In this State they are more generally rec^d. for 20 & 10 Cts - We never thus at 18 & 9 Cts. & of course have very few offered - Very little of the silver British coinage is current in the S. & is seen in this vicinity & what little is usually kept for Pocket pieces, & constitutes no part of the currency - French crowns

are frequent the not plenty & pass by common consent
at 109 Cts. the many return them at 110 Cts.

I am Respectfully

Yours O. S.

W. Page Esq.

W. Page

Receiver's Office Delaware Ohio

8 Mo. (Aug 1st) 31st 1826

Respected Friend -

Thy communication of the 5th Inst. came duly to hand, and I cheerfully proceed to give, (so far as in my power) the information therein requested -

I find by reference to a rough summary (which I have kept for my own satisfaction) of the amounts of Gold, Silver and Bank Notes, which have been received in this office, that since the 3rd of 3rd Mo. March 1823 the amount of every description of Gold is \$1245.67^{1/2} and the whole amount of Cash received from 3rd Mo. March 3rd 1823, to 31st of 8th Mo. Aug 31st 1826, both inclusive is \$138,699,97^{1/2} cents, which has been ~~received as follows~~ to wit:

| | Gold | Silver & Notes |
|---|----------|--------------------------------|
| In the year 1823, since 3 rd March | \$555.66 | \$60,365.28 ^{3/4} cts |
| Do - 1824 - - - | 681.11 | 34,024.13 ^{3/4} |
| Do - 1825 - - - | 5.10 | 28,765.77 ^{1/2} |
| Do - 1826, up to 31 st Aug st | 5.10 | 15,604.77 ^{1/2} |
| Total - - - | 1245.67 | 138,699,97 ^{1/2} |

As I had no idea of any advantage arising from such a source, I have not kept the amounts of each description of Gold separate, which renders it impossible for me at this time to state the precise amount of each kind which has been received, and this being the case, all that I can say on this part of the subject, must be from recollection, which at best will be very imperfect -

The only kinds of gold which have been rec^d at this office
up to the present time are, American, British & Portugal, French
and Spanish. And my present impression is that something like
1/2 of the whole amount has been British & Portugal, and the
remaining 1/2 in about an equal amt of each of the other three
kinds, to wit, American, French and Spanish. The British &
Portugal, agreeably to instructions from the French Bank of Ind.
at Lincenwale, are rec^d at 88. 8. French at 87. 8. and Spanish
at 84 et per Q^{rt}, and have consisted principally of the fol-
lowing description of coin, to wit, English Guineas, Johannes &
Half Johannes, French Guineas & 20 French pieces, and Doubloons
of Spain, and the Spanish denarius of the south. These last men-
tioned coins of the south are rec^d at the same rate of the gold of
Spain. All descriptions of foreign gold pass current through
the country at the rate here stated, but British Guineas are pre-
ferred. It will be seen however that for the last two years
there has been but very little gold of any description received.
The Mexican dollar & the dollar of the new governments of
the south pass current in this country at the rate of the Span-
ish & American dollar; but I believe their real value has not
yet been fully ascertained. The French crean paper at \$1.06 1/4
the five franc piece at .93 1/4 et & Pistoles at 17 et each.

I am very respectfully thy friend,

Sam^l Moore Director U. S. Mint
Philadelphia.

Arthur Howard

Samuel Moore, Esquire }
Director of the Mint of }
the United States. }

Office of the Bank of the
Richmond 31 Aug 1826

Sir,

Having obtained all
the information in possession of the Bank of this
City on the subject of your inquiries of the 28th of June
last, I now transmit it to you, incorporated in the en-
closed list, received from you, in the following replies
to your several interrogatories.

I should regret that the very limited variety of
Foreign coins in circulation here, has deprived me of
the pleasure of furnishing you with ^{more} ample information,
and I trust that the deficiencies of my re-
port to you, will be satisfactorily supplied by the
more abundant materials which will be reported
to you from the larger commercial cities of the Union.

In reply to your 1st inquiry I answer,

That the enclosed list contains a description
of all the foreign gold coins now in possession of the
Bank of this City; that all foreign gold coins

which has been the subject of regulation by the Congress of the United States, would be received and taken by the Bank, for weight, according to said regulation.

To your 2nd Enquiry,

That the enclosed list shows but one piece of Gold of all the Governments of Spanish America, now in possession of the Bank here, and that is a Doubloon of Colombia. None else I believe have yet been seen here. This was taken as Spanish Gold, and if any others were in circulation, I presume they would also be taken as such. I have never seen any Gold coin of Brazil, but should there have been any in circulation here, I presume it would have been taken as the Gold coin of Portugal.

To your 3rd Enquiry, on the subject of Foreign Silver coins,

That the enclosed list contains all the information I have been able to procure.

To your 4th Enquiry,

That Spanish Milled dollars pass at the rate of 100 cents and the divisions thereof (but small amounts) in proportion to their reference to their actual weight. ^{See enclosed list.} How soon they would be taken only by weight. ^{See enclosed list.} Pistareens are not much in circulation here, and

half pistareens still less so. The former (but small amounts) are taken at 17 cents, the latter at 8 cents.

The dollars of the new Government of Spanish America are received at the rate of the Spanish milled dollar. The parts thereof I have never seen. I understand none have yet been seen here.

To your 5th Enquiry,

That I have never seen any of the Silver coins of Portugal. The enclosed list contains all the information I have on this point, & this was obtained from the Bank of Otago. I presume the Silver coins of Brazil would be received at the rate of the Silver coins of Portugal.

I regret that a good deal of indisposition for the last two or three weeks has prevented me from making this report to you as early as I otherwise should have done.

I am, Sir, very respectfully,

Your most obt.

Of Michaelson

TREASURY DEPARTMENT,

REGISTER'S OFFICE,

Sept 25th 1826

SIR,

I HAVE the honor to request, that the usual Estimates for the year 1827 may be prepared and transmitted to this office, as early as convenient, for the purpose of being laid (by the Secretary of the Treasury) before the Legislature of the United States, at their ensuing Session.

I have the honor to be,

Sir,

Your most obedient servant,

Samuel George Register.

*Samuel Moore Esq,
Director of the Mint
Philad^a*

Samuel M. Moore Esq.

Director of the U. S. Mint

Office Bank of States
Charleston 8th Sept. 1876.

Sir, In reply to your call for information relative to the foreign gold & silver currency circulating in this section of the country, I have now the pleasure to transmit, under cover to the Treasury Department as requested, a statement, marked A, containing the questions propounded in your communication of the 28th June last and my answers opposite thereto, with an accompanying list marked B. I have endeavored to render the statement as full and explicit as my means of information, which are quite limited, enabled me - the quantity of Gold Coin in this place affording but a small variety of specimens, and the uniform premium it bears in our market for remittances or speculation preventing the chance of its accumulation. While on the subject of the currency, I deem it not irrelevant to remark, that the dime piece, notwithstanding its convenience & fitness for coin change circulation,

paper at its real value of 10 Cents, only in Banks
& the Public Office, being taken by the public for
not more than 6 1/4 Cents, the single piece. This arises
from the general non-use of the Copper Coin in this
place, & the consequent difficulty of adjusting the
difference between the 6 1/4 & 10 Cent pieces; but should
might be remedied if it were practicable to withdraw
the 8.th & 16.th of the Spanish Colon ^{from circulation} & substitute an
American Coinage of dimes & half dimes. The
necessity of the Copper currency is very much felt here
and attempts have been made to bring it into general
use, but without success for want of those denominations
of coins, instead of the Spanish.

I shall be always happy to aid you in any
inquiry you may desire on the subject under
your charge, and remain, Sir

With respect

J. O. B. Jr.

My dear Sir

Dear Sir

Sir

I have discovered a bed of ore in
this section of country that the descrip-
-tion of the Enclosed and cannot get it
analysed to my satisfaction I have
therefore enclosed you a piece of
it and would take it as a
particular favor if you would
have it analysed and let me know
as soon as practicable what
it contains and what is its
value your attention to this business
will confer a singular favor
on your obt. Servt,

The Director of
the Mint Philadelphia William H. Dulaney

TREASURY OF THE UNITED STATES,

Washington, July 5th 1826

SIR,

Enclosed you will find my draft No. 9016 on the Bank of the United States, for Dollars, 2. 450 — the amount of Warrant No. 4 — issued by the Secretary of the Treasury, on receipt whereof be pleased to favor me with an early acknowledgment, specifying the sum received.

With due consideration, I am,

Sir, your obedient servant,

W. T. Jackson

Treasurer of the United States

James Rush Esq—
Treasurer Mint

Mount of the United States

Philad. a Janr 1826

Sir

A resolution of the Senate of the U. States on the subject of foreign coins renders it desirable to obtain from the best sources of information in different sections of the Union a variety of facts relative thereto. I take the liberty therefore of requesting that you will be so good as to reply as precisely and fully as practicable to the following inquiries.

1 What foreign gold coins and what denominations thereof are in circulation or use or received by the Banks within the range of your observation.

2 What are the dates of those coins most frequently observed, and what are the oldest and what the latest dates noticed.

3 At what rate per pennyweight are those coins now received, if they pass by tale at what value are they now usually received.

4 Are the gold coins of the New Government of Brazil now in circulation or received by the Banks - if so are they received at the same rate as the gold coins issued under the authority of Spain.

5 Are the gold coins of Brazil of the latest date received in circulation or by the Banks at the same rate as the gold coins issued under the authority of Portugal.

6 What proportion of the amount of Spain within your observation consists of gold coins - What proportion does the amount of foreign gold coins bear to that of the gold coins of the United States.

7 What foreign silver coins and what different denominations thereof do you observe used in circulation or rec'd by the Banks.

8 What are the rates of those coins most frequently observed - when the oldest and what the latest date noticed.

9 Do Spanish dollars circulate and find acceptance in the Banks at the rate of 100 cents without reference to their actual weight, so the denizens of the Spanish dollar pass unlike measures without regard to their weight.

10 Are the Pastasens and the halves thereof current and at what rate.

11 Are dollars of the New Governments of Spanish America used in circulation or rec'd by Banks like the dollar issued under the authority of Spain. Are the divisions of those dollars rec'd like the corresponding parts of the Span. dollar.

12 Are the silver coins of Portugal and Brazil used in circulation or received by the Banks and at what rate. Are those of Brazil of the latest date received at the same rate as those issued under the authority of Portugal.

13 What proportion of the specie within your observation, consists of foreign silver coins and what of those of the United States.

Enclose for the purpose of facilitating detailed replies on some of the above points a list of all the foreign gold and silver coins supposed to be in use or moving in any part of the United States. Please fill the several columns for each coin, if found within your horizon. When none are found of the character named please note the facts. Be the more for remarks and send for their information & information as may be useful

and please accompany these details, as soon as you can satisfactorily examine the points submitted, with a letter to me addressed as above, containing such additional observations as occur to you on the topics foregoing, extending your remarks also to any other foreign coins omitted in the list, which are known to you as being in circulation in any part of the United States. You will oblige me by enclosing the whole under cover to the Hon^{ble}. Richard B. Rusk, Secretary of the Treasury, Washington.

Among the preceding inquiries are some especially No 6 and 13 which I am aware can not be answered exactly - the best estimate in your power will in such cases be considered as a useful approximation to the truth.

Should I perceive from your replies that there are in the quarter where you reside, some varieties of gold or silver coins which I can not otherwise obtain, I may on a future occasion, ask leave to trouble you with procuring the requisite specimens for an assay.

I am very respectfully

Your obed^t. Serv^t.

Samuel Moore

Comptroller's Office,
24. May, 1850.

Sir,
Your account of Gold and silver Bullion deposits for coin-
age and coins made for the 4th quarter of 1849, has been adjusted at the Treasury,
and a balance of \$79,966. Therefore due to the United States from you, coin-
age as follows, viz:-

| | |
|---|---------------------|
| In the hands of the Minter and Refiner, Gold Bullion, . . . | \$ 1,826.13. |
| Reduct. Balance due to the Chief Coiner, " " . . . | 71.18.5 |
| | <hr/> 1,754.94.5 |
| In the hands of the Chief Coiner, . . . Silver Bullion, . . . | 7,230.51.5 |
| " " " Minter and Refiner, " " . . . | 17,127.57.5 |
| " " " Comptroller's & Inspection, " " . . . | 3.23.5 |
| Gold coin, remaining in the Bank of the United States, . . . | 2,120.89.5 |
| Silver " " " " " " " " . . . | 21,712.34.5 |
| | <hr/> \$ 79,966.71. |

Which balance remains to be accounted for on a future settlement.

Respectfully,

Jo. A. Aracron
Comptroller.

James Bush, Esq.
Treasurer of the Mint.

Mount of the United States

Philad^a June 1826

Sir

A resolution of the Senate of the U. States
respecting foreign gold and silver coins, renders it de-
sirable to ascertain from different sources of the
Union, a variety of facts relative thereto. Excuse therefore
my request that you will be obliging as to inform^{me}
as precisely and fully as practicable, on the follow-
ing points.

1 What foreign gold coins are used in circulation
or received by the Banks within the range of your
observation. What are the dates of those coins most
frequently observed. What the oldest and what the
latest dates noticed.

2 At what rate per pennyweight are those coins now
received. If they pass by tale at what value do they
usually pass. Are the gold coins of the New Governments
of Spanish America received at the same rate as the gold
coins of Spain. Are those of Brazil, of the latest dates,
received at the same rate as the gold coins of Portugal.

3 What foreign silver coins are used in circulation or received by the Banks. What are the dates of those coins most frequently observed. What the oldest and what the latest dates noticed.

4 Do Spanish Milled Dollars pass at the rate of 100 cents, and the divisions thereof in proportion, without reference to their actual weight. Are Pistareens and the halves thereof current and at what rate. Are the Dollars of the new Governments of Spanish America received at the rate of the Spanish Milled Dollars, and the parts thereof in proportion.

5 Are the silver coins of Portugal used in circulation or received by the Banks, and at what rate. Are those of Brazil of the latest dates rec^d at the rate of the silver coins of Portugal.

I enclose for the purpose of facilitating detailed replies on some of the above points, a list of paper to contain all the gold and silver coins current within generally or locally in the United States known to fill the several columns for each coin if found within your knowledge. Where none are found of the character mentioned, please note the fact.

When you shall have had convenient time to investigate the points submitted, please favour me with a communication thereon, addressed as above, embracing such further facts and explanations as may better illustrate the subjects of enquiring, in addition to what the enclosed columns contain. If any foreign gold or silver coins not mentioned are known to you as being in circulation in any part of the U. States please extend your remarks to them. You will oblige me by enclosing the whole under cover to the Hon^{ble}. Richard Burke, Secretary of the Treasury, Washington.

Should I learn from your communications that there are in the States other than you reside any varieties of gold or silver coins which I can not conveniently obtain, I may on a future occasion trouble you with procuring the requisite specimens for an examination and assay thereof.

I am respectfully

Richard Smith Esq.
